

## Crichton House, Edinburgh

For Manor Properties (Edin) Ltd, Frank Spratt Ltd

Crichton House is a former brewhouse building that was converted into offices in the late 1990s, as part of the Holyrood North re-development.

Since then, ARCADE has carried out a number of projects at Crichton House including:

- designing the colour scheme for the central staircase and common areas;
- re-designing the ground floor entrance hall;
- re-configuring the layout of the ground and first floor offices;
- providing external signage for the Scottish Building Federation.
